- Show the Print Order link on the order success page.
- Add custom text above and below order info on success page.

Ultimate Guide for Magento 2 Order Success Page

Introducing Magento 2 Order Success Page is an extension that allows store owners to customize the Checkout Success Page (known as Thank You Page) as they want, display order details and style the success page with a thank you message, Shipping Information, widget, etc. It has some great benefits that make your Thank You page more interactive and customer-friendly. After placing, an order customer can view all information about the order like Payment Method, Shipping Method, Billing Address, Shipping Address, Ordered Product, and Order Status on a single page.

- Display Order Details: Show a clear summary of the order, including product names, sku, quantities, prices, and total cost.
- Shipping Information: Provide details about the shipping method selected.
- Billing Information: Display the billing address entered by the customer.
- Add Custom Text above and below Order Info: Add text above and below the order information store owner set font size and choose color from the backend.

How to install the extension

1. Install via composer (recommend)

- Enable maintenance mode **php bin/magento maintenance:enable**
- Run the command **composer require mageinic/order-success-page**
- Run the command **php bin/magento module:enable MagelNIC_Core MagelNIC_OrderSuccessPage**
- Run the command **php bin/magento setup:upgrade** to install the extension
- Run the command **php bin/magento cache:clean** to clean the cache
- Disable maintenance mode **php bin/magento maintenance:disable**
- Check the store environment if everything is working properly. If, at any point, the store displays an error, check the Magento logger for more details.

2. Upload via ZIP/Archive

- Back up your store's database and web directory
 - Download the extension zip file and extract the zip file
 - Transfer the **MagelNIC** folder to the Magento 2 **app/code/** directory on the server
 - Enable maintenance mode **php bin/magento maintenance:enable**
 - Run the command **php bin/magento module:enable MagelNIC_Core MagelNIC_OrderSuccessPage**
 - Run the command **php bin/magento setup:upgrade** to install the extension
 - Run the command **php bin/magento cache:clean** to clean the cache
 - Disable maintenance mode **php bin/magento maintenance:disable**
 - Check the store environment if everything is working properly. If, at any point, the store displays an error, check the Magento logger for more details.
-

Extension Configuration

To configure the extension configuration, Please go to **Stores → Settings → Configuration → MagelNIC → Order Success Page**.

Order Success Page Configuration

The screenshot displays the 'Configuration' page in the MageNIC system, specifically the 'Order Success Page Configuration' section. The left sidebar shows the navigation menu with categories like GENERAL, CATALOG, SECURITY, CUSTOMERS, SALES, SERVICES, and MAGENIC. The 'MAGENIC' category is expanded, showing 'Order Success Page' and 'ADVANCED' options. The main content area contains the 'Order Success Page Configuration' settings. These settings include a dropdown for 'Enable Module' (set to 'Enable'), and several 'Show' options for shipping address, shipping method, billing address, payment method, ordered product, order status, reorder link, and print order link, all set to 'Yes'. A 'Description' field is also present for customizing the page content. Red boxes and arrows highlight specific settings and their corresponding descriptions in the text below.

Enable Module - Enable the module functionality in the Website via the Yes/No option, the

Show Shipping Address - Enable/Disable the shipping address on the order success page.

Show Shipping Method - Enable/Disable the shipping method on the order success page.

Show Billing Address - Enable/Disable the billing address on the order success page.

Show Payment Method - Enable/Disable the payment method on the order success page.

Show Ordered Product - Show order product details on the order success page.

Show Order Status - Enable/Disable the Order status on the order success page.

Show Reorder Link - Enable/Disable the reorder of the order success page.

Show Print Order Link - Enable/Disable the print order link on the order success page.

Description - Add the custom Description on the order success page (like text, widget, image, etc.).

Thank You Message Configuration

The screenshot shows the 'Configuration' interface with a sidebar on the left containing various system modules. The main content area is titled 'Configuration' and includes a 'Scope' dropdown set to 'Default Config' and a 'Save Config' button. The configuration is organized into sections: 'Order Success Page Configuration', 'Thank You Message Configuration', 'Text Above Order Details Configuration', and 'Text Under Order Details Configuration'. The 'Thank You Message Configuration' section is highlighted with red boxes and arrows indicating the following settings: 'Thank You Message' (set to 'Thank you For Purchase'), 'Text Input Size (Pixel)' (set to '30'), and 'Color' (set to '#24c998').

Thank You Message - Put a thank you message on the order success page.

Text Input Size (Pixel) - Set the thank you message font size on the order success page.

Color - Set the thank you message Color on the order success page.

Text Above Order Details Configuration

The screenshot shows the 'Configuration' interface with a sidebar on the left. The main content area is titled 'Configuration' and includes a 'Scope' dropdown set to 'Default Config' and a 'Save Config' button. The configuration is organized into sections: 'Order Success Page Configuration', 'Thank You Message Configuration', 'Text Above Order Details Configuration', and 'Text Under Order Details Configuration'. The 'Text Above Order Details Configuration' section is highlighted with red boxes and arrows indicating the following settings: 'Text Above Order Details' (set to 'Please check your order information again'), 'Text Input Size (Pixel)' (set to '30'), and 'Color' (set to '#9d2294').

Text Above Order Details - Put the message above the order details on the order success page.

Text Input Size (Pixel) - Set the font size of the message above the order details on the order success page.

Color - Set the color of the message above the order details on the order success page.
